

# GRAVITY MANUFACTURING

## MANUFACTURING

We work with a wide range of manufacturing businesses of all sizes – from new ventures to large companies with complex risk needs.

We pride ourselves on delivering a first-class service, but our aims are always the same – to protect the value of your business and help reduce the total cost of risk.

Your business will have a wide range of risks around your premises, equipment, stock and staff. Our dedicated staff will work with you throughout the whole process to give you peace of mind in protecting you against those risks.

*“Having dealt with Dale and the Gravity team for a number of years, they take a hands-on approach in understanding our business and our needs. Their knowledge and experience is important to us and gives us the peace of mind that our assets are suitably protected. Whether we need risk management advice or support with claims, the Gravity team are always quick to assist us’.* **Nick Shott, Managing Director, G. John Power Ltd**

A typical manufacturing insurance policy provides cover for:

- Machinery
- Equipment
- Stock
- Business interruption
- Public and employer's liability
- Products liability
- Goods in transit
- Directors and Officers liability
- Legal expenses

Theft, fire and flood as well new regulations and a breakdown in the supply chain can also have a huge impact on your business, things we are experienced at guarding against.
